

# Taking Quality And Performance To New Heights

Jameson introduced the first fiberglass poles in 1956 and continues to set the standard for quality poles.

Built to withstand rugged conditions, Kevlar is added to the fiberglass for added strength and the protective surface veil prevents fibers blooming at the surface due to abrasion or ultra violet light.

All poles are 1.25" diameter so they can be used together in any combination you need. For added versatility, Jameson's unique adapter system allows the use of different tools with the same pole.

Aircraft grade aluminum ferrules with exterior leaf spring locking button provide a secure connection.

Jameson's most popular pole costs less without sacrificing quality. The hollow core FG series poles are lighter than the JE series poles, yet offer exceptional bending strength. The pole professional arborists choose for tree trimming.

	A	B	C	D	E	
	Extension Pole	Base Pole	Head Pole	Top Pole	PS-3 Sawhead Section	PS-3FP Sawhead Section
	Male Ferrule & Female Ferrule	Female Ferrule & Rubber Cap	Male Ferrule & Ferrule w/Eyebolt For Pruner Rope	Blank End & Male Ferrule	Male Ferrule & PS-3	Male Ferrule & PS-3FP

10'	JE-10	JE-10F	JE-10M	JE-10BM	JE-10S	JE-10SFP
12'	JE-12	JE-12F	JE-12M	JE-12BM	JE-12S	JE-12SFP

Jameson's original foam core pole is still the highest quality fiberglass pole available. The foam core prevents moisture build-up inside the pole and adds extra hoop strength and rigidity, making it the right choice for line clearance.

Every JE series pole is tested to 100KV per foot for five minutes.

# LS Series

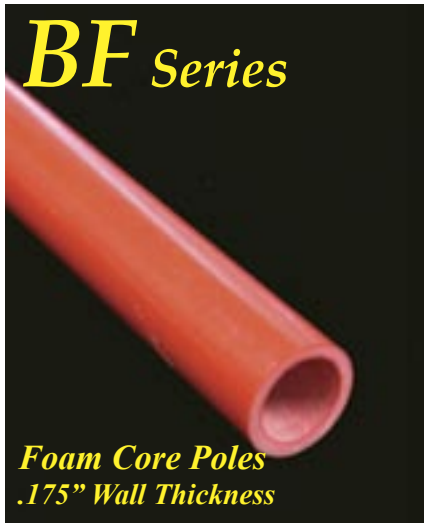

**Hollow Green Poles**  
**.10" Wall Thickness**

	A	B	C	D	E	
	Extension Pole	Base Pole	Head Pole	Top Pole	PS-3 Sawhead Section	PS-3FP Sawhead Section
Length	Male Ferrule & Female Ferrule	Female Ferrule & Rubber Cap	Male Ferrule & Ferrule w/Eyebolt For Pruner Rope	Blank End & Male Ferrule	Male Ferrule & PS-3	Male Ferrule & PS-3FP

12'	LS-12	LS-12F	LS-12M	LS-12BM	LS-12S	LS-12SFP

Jameson's light duty pole for landscapers. LS Series poles have a hollow core and thinner wall, resulting in a lighter, more flexible pole.

	A Extension Pole	B Base Pole
3'	BF-3	BF-3F
6'	BF-6	BF-6F
8	BF-8	BF-8F
10	BF-10	BF-10F
12'	BF-12	BF-12F

*Extra thick walled fiberglass pole provides increased stiffness where extra rigidity is required. Features a steel female ferrule with interior button in the male ferrule. Interchnages with other manufacturers' interior button lock poles and accessories*

BF Series Poles have a steel female ferrule with an interior locking push button. Interchangeable with other manufacturers' interior button lock poles.

## The Jameson Adapter System

With Jameson's unique and versatile Adapter System, you can use a pruner head, pole saw or wire raiser with the same pole.

Accessory adapters quickly lock into pole's female ferrule for maximum flexibility in the field. Adapters also allow the use of any manufacturers' accessories with Jameson poles.

<b>Aluminum Adapters</b>	<b>Part Number</b>
Adapts PH-11 Pruner, #20 Gilmore Pole Saw, Fanno #5 Sawhead	PHA-11
Adapts PH-12 Pruner	PHA-12
Adapts HK Porter HD and Bartlett Socket	PHA-13
Adapts JA-14 Pruners, Bartlett #100-00, Marvin PH-3 (Square) and PH-4R (Round) Base Pruners	PHA-14
Adapts Newman 900 Pruner	PHA-15
