[ERITECH CADWELD Magnetic Hold Down Assembly for "A" Price Key Molds data sheet](#)

The new magnetic hold down assembly holds "A" Price Key molds securely to large flat or slightly curved horizontal steel surfaces during the connection process.

FEATURES

- Includes a powerful welding magnet (50 lbs) which securely positions mold during connection process
- Helps with mold stability to reduce the chance of weld metal leakage
- Is sold separately - quickly and easily attaches to hold down "A" Price Key molds (new or retrofit)
- Is adjustable
- Provides ideal solutions when used with CADWELD® PLUS to allow for use of full extension of control unit lead
- Can be used on flat steel surface or steel pipe

AVAILABILITY

North America
Europe/Middle East/Africa

APPLICATIONS

"A" Price Key Mold on Steel Pipe

Hold Down Magnet Assembled on Mold
